

Stop the spread of germs that make you and others sick!

Cover your Cough

Cover your mouth and nose with a tissue when you cough or sneeze

or

cough or sneeze into your upper sleeve, not your hands.

Put your used tissue in the waste basket.

Clean your Hands

after coughing or sneezing.

Wash hands with soap and warm water for 20 seconds

or

clean with alcohol-based hand cleaner.

Healthy habits help keep your family well.

Take care: Cover coughs and sneezes. Keep hands clean.

Healthy habits can protect you and your children from getting germs or spreading germs at home, work and school. Simple actions can stop germs and prevent illnesses.

Cover your mouth and nose. Use a tissue when you cough or sneeze and drop it in the trash. If you don't have a tissue, cover your mouth and nose as best you can.

Clean your hands often. Clean your hands every time you cough or sneeze. Hand washing stops germs. Alcohol-based gels and wipes also work well.

Remind your children to practice healthy habits, too. Germs that cause colds, coughs, flu and pneumonia can spread easily.

Healthy habits help reduce illnesses and sick days. Feel good about doing the right things to stay well.

Healthy habits stop germs. At home, work and school.

Cleaning Hands Keeps Students In School

COVER MOUTH AND NOSE

CLEAN HANDS

Cover Coughs and Sneezes. Clean Hands.

Be a germ stopper at school — and home. Cover your mouth and nose when you cough or sneeze. Use a tissue and throw it away.

Clean your hands a lot

- After you sneeze or cough
- After using the bathroom
- Before you eat
- Before you touch your eyes, mouth or nose

Washing hands with soap and water is best. Wash long enough to sing the "Happy Birthday" song twice. Or, use gels or wipes with alcohol in them. This alcohol kills germs!

Stop germs. And stop colds and flu.
